Issued September 21, 2023

The Association of United Ukrainian Canadians (AUUC), an organization that stands for peace, continues to condemn Russia's actions in regards to the invasion of Ukraine and the violation of sovereign territory.

Furthermore, the AUUC opposes the use of force, including those of global powers (the U.S., U.K., etc.) which promotes or escalates the violent conflict that has decimated the peace-loving people of Ukraine.

The AUUC calls for an immediate end to aggression and war in Ukraine and calls on the Canadian government to work for a meaningful and lasting peace in Ukraine. An immediate de-escalation of war is not enough – there must be honest, sincere efforts to reach lasting common ground to end and reverse the economic, emotional and physical damage.

Adopted by the National Committee of the Association of the United Ukrainian Canadians September 9, 2023
